INDEX.

ABBOTT, C. C., certain phases of bird-life, 361
Absorption-bands in spectra, new methods of measuring, 138
Achrematite, new molybdo-arsenate of lead, 281
Act to provide for the regulation and inspection of mines has been translated into Chinese, 426
Aërial locomotion, 132
Age, geological, of New South Wales coal, 430
"Air and its Relations to Life" (review), 111
ANDREWS, T., certain methods of physico-chemical research, 421
— university education and endowment of research, 549
Andrewsite, formula of, 281
— place and mode of occurrence of 281
"Animal Morphology and Systematic Zoology, Introduction to" (review), 413
"Animals and Plants under Domestication, Variation of" (review), 384
Animals, conscience in, 145
"Annual Record of Science and Industry for 1875," 537
"Annual Report of Smithsonian Institute" (review), 127, 387
Apparatus for perforating glass with electric spark, 142
— scientific, loan collection at South Kensington, 371
Arctic scientific investigation, fundamental principles of, 416
"Arithmetic, British Metric" (review), 269
ARMIT, R. H., "Light as a Motive Power" (review), 262
"Art, Science, and Literature, Dictionary of" (review), 110
Artificial production of cold and ice, 431
"Astronomy, Handbook of" (review), 397

BALANCE of Wisdom, book of, 494
Bamboo in paper-making, probable advantages of using, 287
BEARD, G. M., newly-discovered force, 178
BEATTY, G. D., double staining wood, 139
Beet sugar, action of saline solution on, 432
BELT, T., deposits containing flint implements, 289
— description of the drift of Devon and Cornwall, 283
Biological controversy and its laws, 201
"Biology, Practical Instruction in Elementary" (review), 106
Bird life, certain phases of, 361
Bird's eggs, colouring of shells of, 78
"Blue and Sun Lights" (review), by General A. J. Pleasanton, 533
BOLTON, H. C., earliest medical work extant, 95
— the book of the balance of wisdom, 494
Bombay, rival schemes for providing suitable wet docks for, 140
Bone caves of Cresswell crags, 428
— preparing sections of, 137
Borate of soda, deposits of at bed of lake in Slate Range Mountains, 281
BRANDE, W. T. and COX, G. W., "A Dictionary of Science, Literature, and Art" (review), 110
British Association for the Advancement of Science at Glasgow, 546
BROWN, C. B. and SAWKINS, J. G., "Reports on the Physical, Descriptive, and Economic Geology of British Guiana" (review), 124

XUM

BROWN, W. L., formation of impressions upon the human body by a lightning stroke, 143
BROWNING, J., single magnifier, new form of, 284
"British Guiana, Physical, Descriptive, and Economic Geology of" (review), 124
"British Metric Arithmetic" (review), 269
"Bubbles from the Deep" (review), 414
BUCKLEY, A. B., "Short History of Natural Science" (review), 275
"Building Construction," by R. Scott Burn (review), 531
— — (review), 543
Buildings, weight on foundations of, 142
BURCHETT, E. S., "Practical Plane Geometry" (review), 387
BURTON, R. F., the Nizam diamond —the diamond in India, 351

CALEDONIA, priority of discovery of nickel deposits in, 426
Caliche, analysis of, 282
Canada, mode of occurrence of phosphatic deposits in, 429
"Caroline Herschel, Memoirs and Correspondence of" (review), 405
"Catalogue of Photographs of the United States Geological Survey" (review), 279
— of rocks, minerals, and fossils, 284
— of the preparations of the Quekett Microscopical Club, 138
Caves, bone, of Cresswell crags, 428
Cells mounted with glycerine, preventing leakage in, 137
Chalkosiderite associated with Andrewsite, 282
"Check List of Ferns of North America, North of Mexico" (review), 543
Chemical composition of microcline, 431
— researches, recent, 30
"Chemistry and the Allied Branches of other Sciences" (review), 113
"Chemistry of Light and Photography in their Application to Art, Science, and Industry," by Dr. Hermann Vogel (review), 540
Chlorite, description of pseudomorphs of, 282
"Cholera epidemic of 1873 in the United States" (review), 389
Chondrodite, crystals of, 282
"Christian Psychology" (review), 257
Civilisation, cradle of, 441
"Clarke and Lewis, Account of Publications relating to the Travels of, with Commentary on Zoological Results" (review), 388
CLARKE, W. B., priority of discovery of nickel deposits of New Caledonia, 426
CLERK-MAXWELL, J., protection of buildings from lightning, 561
CLOIZEAUX, M., optical and crystallographical properties and chemical composition of microcline, 431
Cold and ice, artificial production of, 431
Colour, constants of, 458
Colouring-matters, experiments with, 424
Conscience in animals, 145
COOLEY, W. D., "Physical Geography" (review), 385
CORNIL, M., experiments with colouring matters, 424
